## API Sandbox for banks

REALISTIC BEHAVIOUR

REDUCED EFFORT FOR BANK

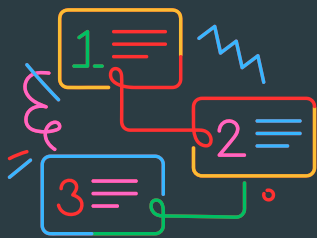

### Improved customer journey

True<sup>®</sup>life experience allows Developers to test effectively, and integrate faster with the bank.

### About us

XMLdation deliver Testing as a Service solutions in cloud for banks and payment system operators.

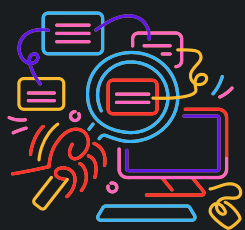

### Realistic sandbox behaviour

Try-it and Test-it modes for payment processing, account statements and other bank services. Clients can work with their own data. Integrates easily with bank Developer Portals

### Why XMLdation?

We are international payments experts with experience across four continents. Our agile team implements requirements with high quality, utilizing cloud-native solutions.

### Fast build

Built by team expert in delivering sandboxes for bank APIs. Frees the bank technology team to focus on core priorities –building the production APIs.
